MOVEMBER

Month of November which is called Movember where Pacific Laboratory Specialists in partnership with Fiji Cancer Society reached out to the communities conducting awareness and screening of Prostate Cancer.

Our main target is early detection and we are so privileged and honoured to touch our grassroot people and at the same time prepare them a pathway so they can get immediate treatment. Also thank Fiji one for providing the opportunity to air through Nai Katalau programme to speak and touch every Fiji Citizen to be aware of there Prostate Cancer Status.

#Fight against Prostate Cancer is everyone's responsibility# #Know your Norm#

IS IT BECAUSE I'M GRAM NEGATIVE?

FIJI CDC NADI CELEBRATES 1ST BIRTHDAY

The Fiji CDC Nadi celebrated its 1 year of services. The FCDC Laboratory was established in Nadi in response to the growing demand for COVID-19 testing in the country and to strengthen the border health protection unit and border control systems. The container/ mobile laboratory performs RT-PCR testing for COVID-19 and other molecular diagnostic tests.

FIJI CDC NADI DURING ITS ESTABLISHMENT LAST YEAR

CONTACT US
